

Compressori a cinghia monostadio

Belt driven single-stage compressors

 **25÷270 L**  **2÷5,5 Hp**

Progettati per un utilizzo intensivo da parte di artigiani e piccole industrie. Molti i pregi che distinguono questa gamma: gruppi pompanti ad alta efficienza, cilindri in ghisa per una lunga durata, robusti paracinghia in metallo che proteggono le parti in movimento, solide ruote e maniglie per un facile trasporto.

Designed for intensive use in artisan and light industrial applications. Extensive enhanced features set this range apart: high-performance pump, cast-iron cylinders for long service life, robust steel belt guards for optimum protection of moving parts, durable wheels and handles for easy transport.

MK102/N-25-2M

MK103-50-3M

Comandi semplici e facili da utilizzare.
Simple, user friendly controls.

Robusta griglia metallica a protezione di tutte le parti in movimento.
Solid, one-piece handle, tilted for easier transportation.
